Full-Stack Web Developer passionate about creating amazing and delightful software experiences that impact and inspire users to achieve success. Customer- focused professional with more than 3 years of experience in identifying inefficiencies and developing solutions that increase workflow efficiency.

TECHNICAL SKILLS

Languages: Python | Javascript | HTML | CSS **Front End:** React | Bootstrap | AJAX **Back End:** Flask | Node.js | Express

Databases: SQL (MySQL) | NoSQL (MongoDB) **Tools:** Visual Studio Code | Git

TECHNICAL PROJECTS

Visual Sorting Project | December 2021 | https://kquach12.github.io/sorting_project/

The front-end application visually shows the process behind multiple sorting algorithms.

- Utilize React hooks and Javascript Promises to map out boxes of different length following each loop
- Implement insertion, bubble, and selection sort algorithms as the three sorting options to choose from
- Create functional components to separate the control panel from the sorting boxes

Notehub | January 2022 | 18.222.60.50.5

This full stack application is a note taking and sharing platform for Zoomers.

- Use Python, OOP, and Flask to create an online note taking platform that includes CRUD features
- Use AJAX and Javascript to create a stopwatch used to take notes alongside a live Zoom lesson
- Query many-to-many relationships in MySQL to be able to favorite other user's publicly available notes
- Deploy web application publicly using AWS EC2

EDUCATION

Coding Dojo | Software Development Bootcamp | Remote

August 2021 – Present

Software Development Bootcamp

- Immersive Full-Stack Training Program in Python and MERN

University of La Verne | Bachelor of Science in Economics | La Verne, CA

August 2017 – December 2020

- Overall GPA: 3.95/4.0

- 7x Dean's List, Honors Program, University of La Verne's Orr Scholarship, Enactus (Treasurer)

WORK EXPERIENCE

Skechers | Manhattan Beach, CA

April 2021 – Present

Export Finance Administrator

- Input 800+ orders monthly into in-house computer system and validate for correct terms, discount, pricing
